In February we observe the birthday of our 16th President, Abraham Lincoln. One of the many virtues he possessed was the habit of thrift. In fact, he advocated this great American habit in these words: "Teach economy. That is one of the first and highest virtues. It begins with saving money." Your government has provided one of the best methods ever devised for saving. It is simple in operation—enroll NOW for the purchase of Savings Bonds where you work, or if self-employed, the Bond-A-Month Plan at your bank.

Tetanus Immunization

In immunization against tetanus, the first injection should be given as early after birth as possible. The second injection should be given one month after the first, and the third injection six months after the second. Tetanus immunization is followed by a remarkable decrease in the number of deaths from tetanus in the United States. Formerly, tetanus was a frequent cause of death in the newborn.

Predictions on Moon

The theory of the origin of the moon, astronomers believe, are the theories of the origin of the earth. The theory is that the moon was originally a part of the earth, but was thrown off by the earth's rotation. Other theories are that the moon and earth were formed at the same time from the same material, or that the moon was formed elsewhere and captured by the earth.

Club Notes

Mrs. B. G. Anderson
Home Demonstration Agent

Forty - one members representing eleven of the seventeen home demonstration clubs of the county attended the District Federation meeting at Powhatan on Wednesday. There were 425 members present from 13 counties. We of Appomattox County were very proud of the efficient and gracious manner in which Elizabeth Carr, who is president of District III, presided at this meeting. She was lovely to look at in her navy costume with white accents. She wore a corsage at the shoulder, presented by her club women of Appomattox County, as an expression of their love and appreciation of her good work.

We are grateful to Mr. H. A. Torrence for taking time off from his business of farming to take his wife and four other club members to this meeting. We feel he is a part of our district meeting, as each year he makes it possible for four or five members from his community to attend.

The program was very interesting and inspiring. Dr. Dabney S. Lancaster, president of Longwood College, spoke on Family Responsibility in Today's World, and Miss Maude E. Wallace spoke in the afternoon.

One of the highlights of the program was special music presented by Powhatan High School Glee Club. Wished for each member!
